Nestled in the hills of the Magaliesberg Mountain is an all-inclusive venue, guaranteed to breathe life into the vision of your dream wedding or event. Welcome to *Shai Shai Hills Guest Villa & Event Venue*.

Established in 2017, co-owner and Managing Director Dikeledi Shai describes the venue as a space where you can “expect impeccable service in an elegant, yet relaxed ambiance where even the smallest details are carefully considered and always included.”

Dikeledi prides *Shai Shai Hills Guest Villa & Events Venue* as being Pretoria’s all-inclusive four-star wedding and events venue located in Strydfontein on the hills of the rich historic Magaliesberg Mountain.

Whether you’re looking for a wedding venue with an on-site chapel and reception hall, or a location for your next corporate launch, awards function or high-profile party, Dikeledi and her team at *Shai Shai Hills* offer a full-service to ensure your event is a memorable one.

“Creating lasting memories for guests is a core part of the brand. From contemporary designed and handmade guesthouse furniture. To a stylistic modern built function hall and a chapel that caters for a wide range of events. Be it small, intimate meetings, all the way to large cocktail functions, weddings, launches and seminars, whatever the event, our qualified function co-ordinators, chefs and experienced staff are on hand to make your occasion a memorable one,” says Dikeledi.

“We provide exclusive equipment to suit your event. We also ensure that the venue is meticulously prepared, which makes *Shai Shai Hills* one of the most unique wedding venues in Strydfontein.”

Dikeledi looks forward to using the knowledge and training she received as part of the **Metropolitan Collective Shapers** programme to grow *Shai Shai Hills* to be one of the best wedding venues in Pretoria and to fill a gap in the market for event venues in and around Akasia.

“We aim to be among the top five venues in Pretoria in terms of service delivery, reliability and a place where everyone would want to be,” says Dikeledi.
