

Sindiswa Ndlovu

TOP **10** KZN Shaper

Background and goals

Sindiswa embarked on her farming journey eight years ago and is now in her second year of a horticultural degree. She runs *Beauro Landscapes* in Hammarsdale, offering landscaping, gardening services, and agricultural activities. In the short term, she aims to expand her customer base, particularly in urban areas, while improving the efficiency of her gardening services. Over the next 3 to 5 years, she plans to enter new markets and implement sustainable practices to grow her business.

Challenges

One of the biggest hurdles Sindiswa faces is financial constraints, particularly in scaling her infrastructure and accessing specialised training to optimise her operations.

Opportunities and support needed

Sindiswa sees significant potential in serving urban markets and integrating innovative gardening technologies into her work. To achieve her goals, she would benefit from financial education, budgeting workshops, and infrastructure investment. With the right support, she can scale her business and make a lasting impact in the landscaping and agricultural sectors.
