

Saving for your life goals

Your financial wellness journey begins when you start planning for what's important.

Saving money takes patience and discipline, but the rewards are well worth the sacrifice. We all have goals that we work towards and whatever you dream of achieving is possible with proper planning.

What are the benefits?

We offer savings solutions that support your plan for the goal which you're saving towards. Some of our solutions let you withdraw money from your savings once a year.

You choose the monthly payment that'll make it possible for you to reach the goals that you've set for yourself.

You have the flexibility to increase your monthly payments every year so that your savings keep up with the increase of goods and services over time.

You'll pay no tax on money that you withdraw from your savings, or on the money that we pay out to you when you've saved up enough for your goal.
